

## SEA 2023 Opens Next Month!

Sustainability Environment Asia (SEA) is just one month away. Get ready for Malaysia's latest international trade event dedicated to environmental preservation. Focused on key areas like waste management, circular economy, water and wastewater management, recycling, green environment, and technology. SEA 2023 is the regional gateway to uncovering new and innovative ways to improve the environment.

SEA 2023 is endorsed by the Ministry of Local Government Development (KPKT) where they will also organise a conference entitled Circular Economy in Driving Sustainable Cities during the event. Another exciting session at the SEA event is a panel discussion on "Women in Sustainability." This panel of influential women will delve into vital topics, including waste management, renewable energy, water and wastewater, and environmental sustainability.

Seize the opportunity to join one of the most exhilarating events in the business world! Block your calendar from November 22nd to 24th and make sure to attend SEA 2023. You won't want to miss it!
