Organised by  **swa** SINGAPORE WATER ASSOCIATION
In Conjunction with  **SUSTAINABILITY ENVIRONMENT ASIA**

Sustainability Environment Asia (SEA) is Malaysia's latest international trade event dedicated to environmental preservation. Focused on key areas like water and wastewater management, recycling, green environment, and technology. SEA 2023 is the regional gateway to uncovering new and innovative ways to improve the environment.

At SEA 2023, the Singapore Pavilion is set to shine with the participation of over ten leading companies from the city-state, each making significant strides in the realms of environmental protection, sustainability solutions, and more. Singapore's prowess in the water industry, a testament to its status as a smart city, is particularly noteworthy. With cutting-edge technologies and innovative approaches, Singaporean companies have become trailblazers in ensuring a sustainable future.

Furthermore, this event provides a platform for Malaysian businesses to showcase their immense potential in these industries, offering a glimpse into the promising innovations and solutions emerging from the region. This Business Matching between Singapore Water Association (SWA) and Malaysia Water Association (MWA) will highlight the shared commitment to advancing environmental sustainability and smart city initiatives, fostering a brighter and greener future for Southeast Asia.

Don't miss out on this chance to be a part of one of the most exciting events in the business world.
