

SUSTAINABILITY ENVIRONMENT ASIA

12 - 14 NOVEMBER 2024
KUALA LUMPUR CONVENTION CENTRE

www.sustainabilityenvironmentasia.com

2nd Edition of SEA is back!

The 2nd Edition of Sustainability Environment Asia (SEA) is happening on 12 - 14 November 2024 at Kuala Lumpur Convention Centre. SEA 2024 stands as an invaluable platform dedicated to highlighting a diverse array of initiatives, innovations, and ideas centered around sustainability.

Exhibitor Profiles

Waste Management and Circular Economy

Exploring the three Rs of waste management – Reduce, Reuse, Recycle with a focus on circular economy initiatives and innovative solutions.

- Biological Treatment and Composting
- Collection, Sorting and Transport of Waste
- E-Waste Management
- Landfills Containment

- Organic Waste Treatment
- Recycling Services and Reuse
- Recovery Technology - MRF
- Waste Management and Recycling
- Waste to Energy
- Waste Reduction and Conversion

Water and Sewage:

Delve into water sustainability featuring cutting-edge filtration, recycling, and sanitation technologies, along with smart water management, community initiatives, monitoring devices, nature-based solutions, and water-efficient appliances.

- Filtration
- Flood Management
- Hydraulic Engineering and Well Construction
- Irrigation
- Rainwater Harvesting Management

- Sewerage
- Smart Water Solutions
- Pipes and Fittings
- Pumps and Valves
- Water and Wastewater Treatment

Green Environmental and Technology:

Discover green innovation showcasing renewable energy systems, energy-efficient solutions, and other sustainability sources all in one immersive showcase for a sustainable future.

- Climate Change
- Disaster and Risk Management
- Environmental Monitoring Instrument
- Energy Efficiency
- Forest Conservation

- Green Building Solutions and Services
- Pollution Control Equipment (Air, Water, Noise)
- River Pollution Control Technology
- Sustainable Development Technology

With a robust emphasis on environmental preservation, SEA focuses on key areas such as waste management and circular economy, water and sewage, green environments and technology. This event aims to offer a comprehensive overview of ongoing efforts and innovative solutions aimed at tackling environmental challenges in the region.

Mr. Muhammad Hafiz

Administration & Membership Executive, Malaysian Water Association (MWA)

I am happy to have received an invitation to participate in the SEA, marking our inaugural presence at this event. Our experience has been immensely enriching, fostering a deeper understanding of the water industry through meaningful discussion with diverse players from various countries and regions.

Ms. Vivien Seong

Executive Director, Singapore Water Association (SWA)

Sustainability is currently a widely emphasised concept, often considered a significant endeavor. It represents a collective journey towards fostering a circular economy. SEA is a successful show, evident in the participation of various partners and companies under one umbrella in this event.

Mr. Jason Anom

Advocacy & Public Affairs Manager, Malaysian Recycling Alliance (MAREA)

We are delighted and proud to be a part of SEA. We had the opportunity to explore intriguing new technologies and connect with new industry players. We have shared information about MAREA with others, showcasing and explaining our mission while also discussing the current trends in recycling and recyclability.
