

## SEA 2025, Where the Future of Sustainability Awaits

Join us for **Sustainability Environment Asia (SEA) 2025**, the region's leading event driving sustainable innovations and environmental solutions, happening on **12 - 14 November 2025** at **Kuala Lumpur Convention Centre**.

**SEA 2025** builds on this momentum, aligning with the priorities of **COP 29**, which focuses on enhancing global cooperation, cutting greenhouse gas emissions, and driving green investments to support low-carbon transitions. With COP 29 set to establish a new global climate finance goal, the event serves as a vital platform for fostering impactful dialogues and showcasing transformative solutions that contribute to both regional and global sustainability goals. As an international hub for innovation, SEA explores cutting-edge solutions across critical sectors, driving meaningful change for a greener future.

### Exhibitor Profiles

The event will feature a comprehensive program that includes **conference, exhibitions, forums, technical seminars, site visits, networking night, and B2B meetings**. These elements come together to spark change and set the stage for a more sustainable tomorrow.

Be part of a transformative event that brings together industry leaders, experts, and changemakers to drive impactful solutions.

Don't miss this opportunity to connect, collaborate, and shape the future of sustainability!
